MEET OUR PEOPLE

SEAN - CEO

HAYDEN- DESIGNER

SHIORU - CTO

KENJI - CIO

MAXIENO - WRITER/TESTER

21/10/2026

PHASE 1.1: GETTING IDEAS TOGETHER

WHAT DID WE DO?

- making sure that each member understands their responsibilities and roles
- Strength of each member and the breakdown of our works
- Finish the master to-do list

PROBLEMS FACED

- Better planning and roles
- Communication between team members

WHAT WE LEANRT

- Learning more about our teammates
- Learning how to work with each other

THINGS TO IMPROVE ON

- Group meeting
- Work on individual tasks together
- Create a flow chart

TASK COMPLETED:

- Created group chat
- Assigned designated roles
- Understood the purpose of the project
- Get familiar with GitHub
- Created name and logo of our group
- Researched more on our topic

Contributions

Sean 100
Hayden 100
Shioru 100
Maxienno 100

NEXT PAGE FOR AI LOG

21/10/2026

PHASE 1.1: GETTING IDEAS TOGETHER

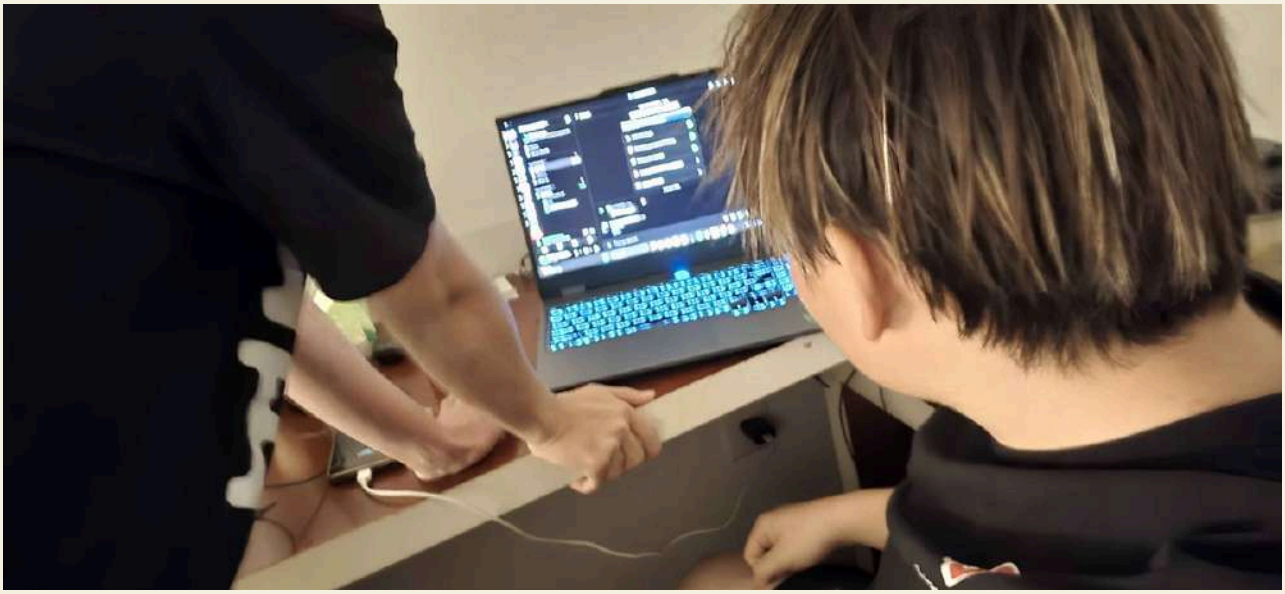

AI LOG

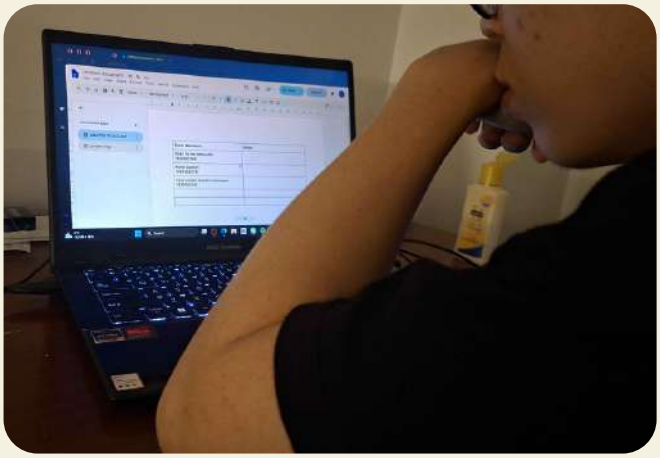

- We asked Gemini to aid us in what our topic discusses in more detail. research was aided using the AI to enhance accuracy and reliability of the materials. We also manage to put the derived sources in which the information comes from.

21/10/2026

NEXT UP: FIRST SUBMISSION

22/10/2026

PHASE 1.2: FINISHING FIRST SUBMISSION

WHAT DID WE DO?

- finishing the template and project log
- finishing designs for the master to do list
- flesh out GITHUB and Markdown

PROBLEMS FACED

- confusion surrounding GitHub
- Time constraint with member schedules

WHAT WE LEANRT

- Adjusting the different work flows of each member
- adjusting to new technology such as GitHub

THINGS TO IMPROVE ON

- Communication
- Work on individual tasks together
- Finish tasks in advanced

TASK COMPLETED:

- finish all task

Contributions
Sean 100
Hayden 100
Shioru 100
Maxienno 100

NEXT PAGE FOR AI LOG

22/10/2026

PHASE 1.2: FINISHING FIRST SUBMISSION

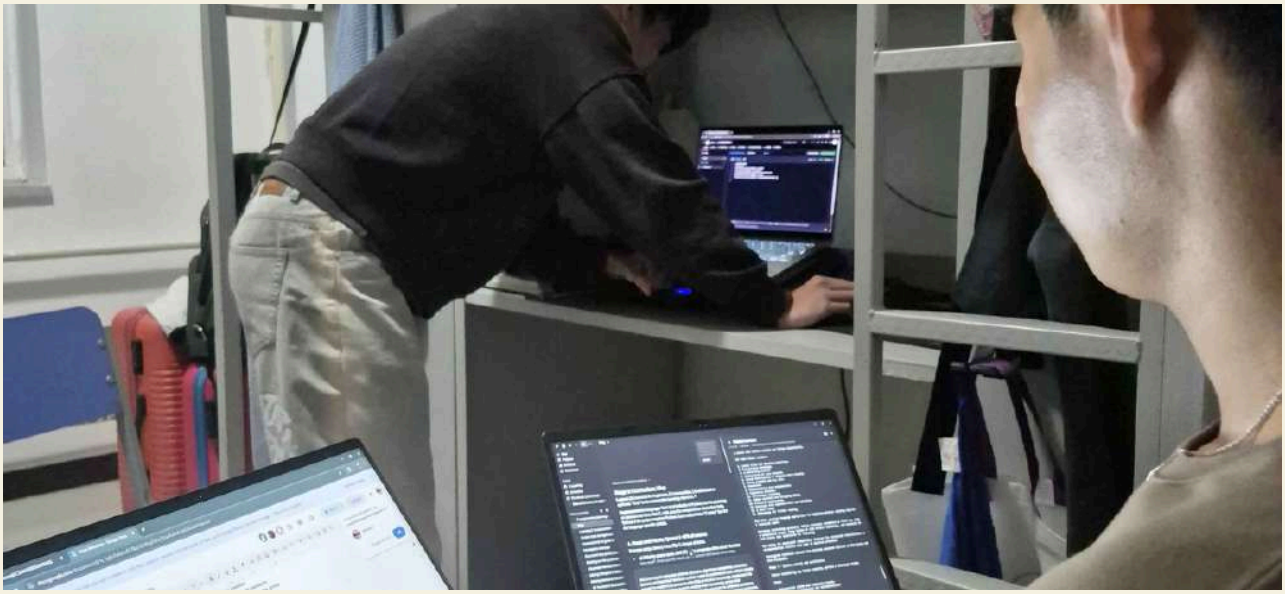

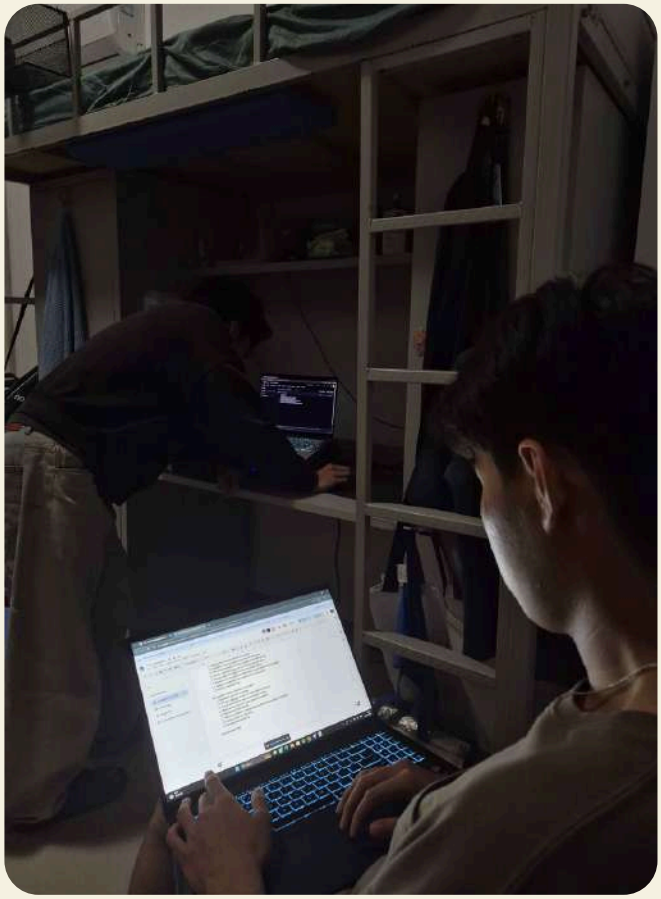

AI LOG

- We asked gemini and chatgpt to proofread our content and questions that had been put into the rough plan and study guide. it assited us to point out any flaws before submission such as grammar issue, content inaccuracy or inconsistency

NEXT PAGE FOR PHOTOS!

22/10/2026

NEXT UP: FIRST SUBMISSION

23/10/2026

PHASE 1.3: FINISHING FIRST SUBMISSION

WHAT DID WE DO?

- finishing submitting the GitHub repository, master to do list and project log

PROBLEMS FACED

- Procrasination.....
- Time constraint with member schedules

WHAT WE LEANRT

- Adjusting the different work flows of each member
- improve pace of work

THINGS TO IMPROVE ON

- Communication
- Work on individual tasks together
- Finish tasks in advanced

TASK COMPLETED:

- submit all task

Contributions
Sean 100
Hayden 100
Shioru 100
Maxienno 100

NEXT PAGE FOR AI LOG

23/10/2026

PHASE 1.3: FINISHING FIRST SUBMISSION

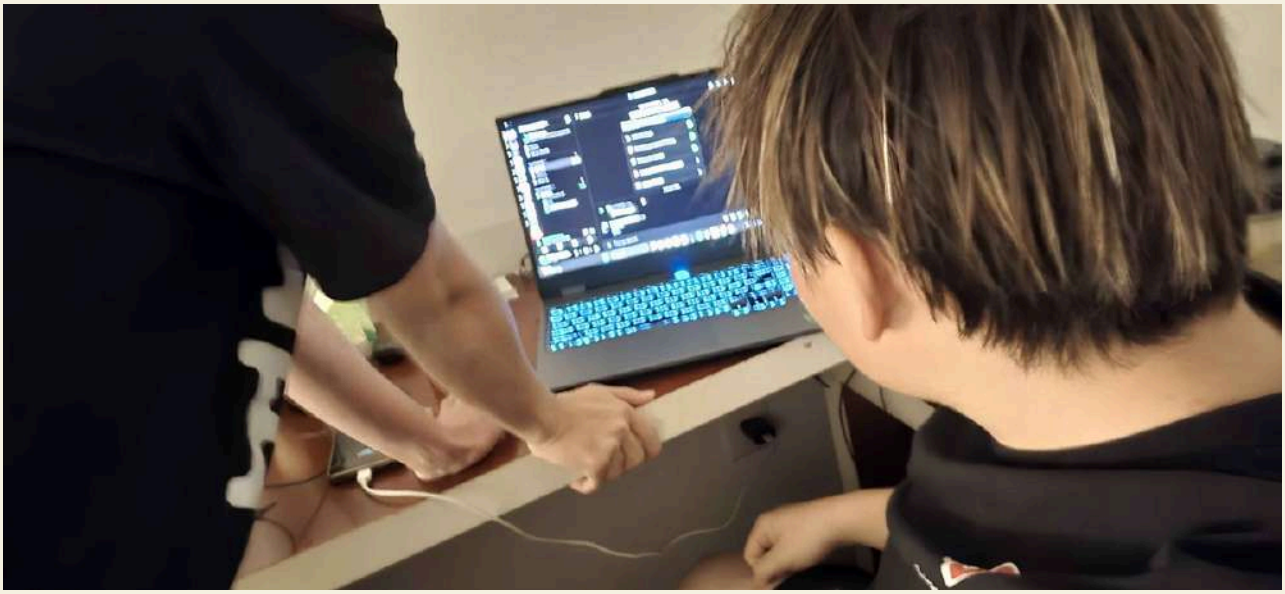

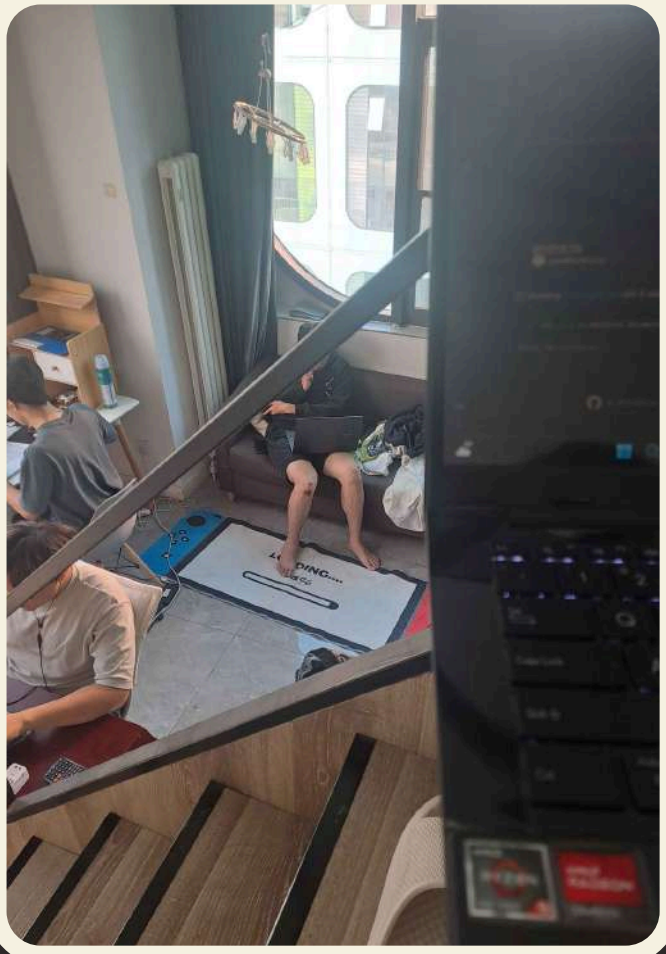

AI LOG

- Gemini assisted us in our works in how to reword some elements found in our research that may seem to wordy or confusing for beginners, as learners and teachers, it is often easy to get lost in words that complicate a concept, thus the AIs assisted us in simplifying the content without running the risk of any inaccuracies in wording or presentation.

NEXT UP: FIRST SUBMISSION

27/10/2026

PHASE 1.4: REVISING

WHAT DID WE DO?

- Analyse, assess and redo our project thoroughly

PROBLEMS FACED

- hard time understanding the actual purpose of the project
- tracking what we missed, what we did right and what to improve

WHAT WE LEANRT

- be cautious on the instructions
- cross check and double check
- refer to other teams to see if there are any gaps in the project

THINGS TO IMPROVE ON

- comprehension reading..
- careful and thoughtful work

TASK COMPLETED:

- submit all task as instructed

Contributions

Sean 100
Hayden 100
Shioru 100
Maxienno 100

NEXT PAGE FOR AI LOG

27/10/2026

PHASE 1.4: REVISING

AI LOG

- There was a clear gap of understanding when facing this task. this led us to put through the enitre instructions through gemini and claude to simplify and emphasis the details presented. any aspects that may have gone lost initially are now highlighted by AI so we will never miss the instructions again.

NEXT UP: Live Status Report

29/10/2026

PHASE 1.5: Live Status Report

WHAT DID WE DO?

- complete the live status report video in a single meeting

PROBLEMS FACED

- finishing the video on time as we were in a tight schedule

WHAT WE LEANRT

- we worked better as a team and manage to finish everything in a timely manner
- communicate on what we want on the project

THINGS TO IMPROVE ON

- finding what the teacher wants in a submission more clearly
- identifying any misunderstandings fast before getting too close to the deadline.

TASK COMPLETED:

- submit a competent project as required

Contributions
Sean 100
Hayden 100
Shioru 100
Maxienno 100

NEXT PAGE FOR AI LOG

29/10/2026

PHASE 1.5: Live Status Report

AI LOG

- we had initally considered ai voice generator for the video but had decided not to. but Gemini and Claude was used in the development of the presentation first draft. However, this is merely a rough visualiser and we proceeded to use it as a point of reference when creating the final powerpoint presentation

Slide 10

- OUR Learning Content
  Goal
- (voiceNote: explain how we plan to meet our target audience by explaining how we make it short and simple with a strong emphasis on real world comparisons for ease of understanding)

3.1 Artificial Narrow AI (Weak AI) – Present-day Applications

Artificial Narrow Intelligence, also known as Weak AI (what we refer to as Narrow AI), is the only type of AI that exists today. Any other form of AI is theoretical. It can be trained to perform a single or narrow task, often far faster and better than a human mind can.

However, it can't perform outside of its defined task. Instead, it targets a single subset of cognitive abilities and advances in that spectrum. Siri, Amazon's Alexa and IBM Watson® are examples of

02/11/2026

PHASE 2.1: Feedback & Finalising

WHAT DID WE DO?

- Asses the full feedback provided by our teacher for our general submission
- assign task and roles for better efficiency and quality of work
- add and AI log

PROBLEMS FACED

- disappointment on how our first submission end up
- arguments on what we should have done better

WHAT WE LEANRT

- be cautious on the instructions
- have a clear plan and task division beofre starting on the project

THINGS TO IMPROVE ON

- structured working
- quality of work
- create mini deadlines

TASK COMPLETED:

- finished task division and feedback assesment

Contributions

NEXT PAGE FOR AI

02/11/2026

PHASE 2.1: Feedback & Finalising

AI LOG

- No significant use of AI was use in this stage as it was merely analysing what else we missed and taking notes of them. Moreover, there was a plan made through self researching efforts.

NEXT PAGE FOR PHOTOS!

Stage 2

TASK DONE BY NOV 7
Markdown Content V2 Deadline 3

- Create first usable learning materials
- Improve markdown content from stage 1
  - Our markdown content is really short compared to kenneth's group. I want to expand on it so it becomes more rigid and complete. If the case its too simplistic i think we may need a redo.
  - The teacher said AI overview people were missing projects covering symbolic AI, connectionist AI and behaviourists AI so we need to add this as additional chapters.
  - Some extended content can still be unfinished but main and core content chapters must be finished by the deadline
  - We also need a revision summary if we changed the content (which we will) so we need to include that

    Include a concise **Revision Summary** in the submission report:

Feedback or problem	What changed and why	Where to find th

  - We also need evidence that we tested it on a random kid so either any one of us or someone learns fr[illegible] input the feedback in the project and personal log

Stage 2 task division

Ai Log

NEXT UP: Finalising Markdown

03/11/2026

PHASE 2.2: Finishing Markdown Content

WHAT DID WE DO?

- we assign each other different parts of the markdown content that needed improvement or additions

PROBLEMS FACED

- how to divide the task equally
- finding reliable sources to conjure accurate information.

WHAT WE LEANRT

- better work as a team
- organise github and familiarise the website better.

THINGS TO IMPROVE ON

- Study Guide
- Video Tutorial
- PPT Slides
- Test bank

TASK COMPLETED:

- markdown content

Contributions

Sean 100
Hayden 100
Shioru 100
Maxienno 100

NEXT PAGE FOR AI LOG

03/11/2026

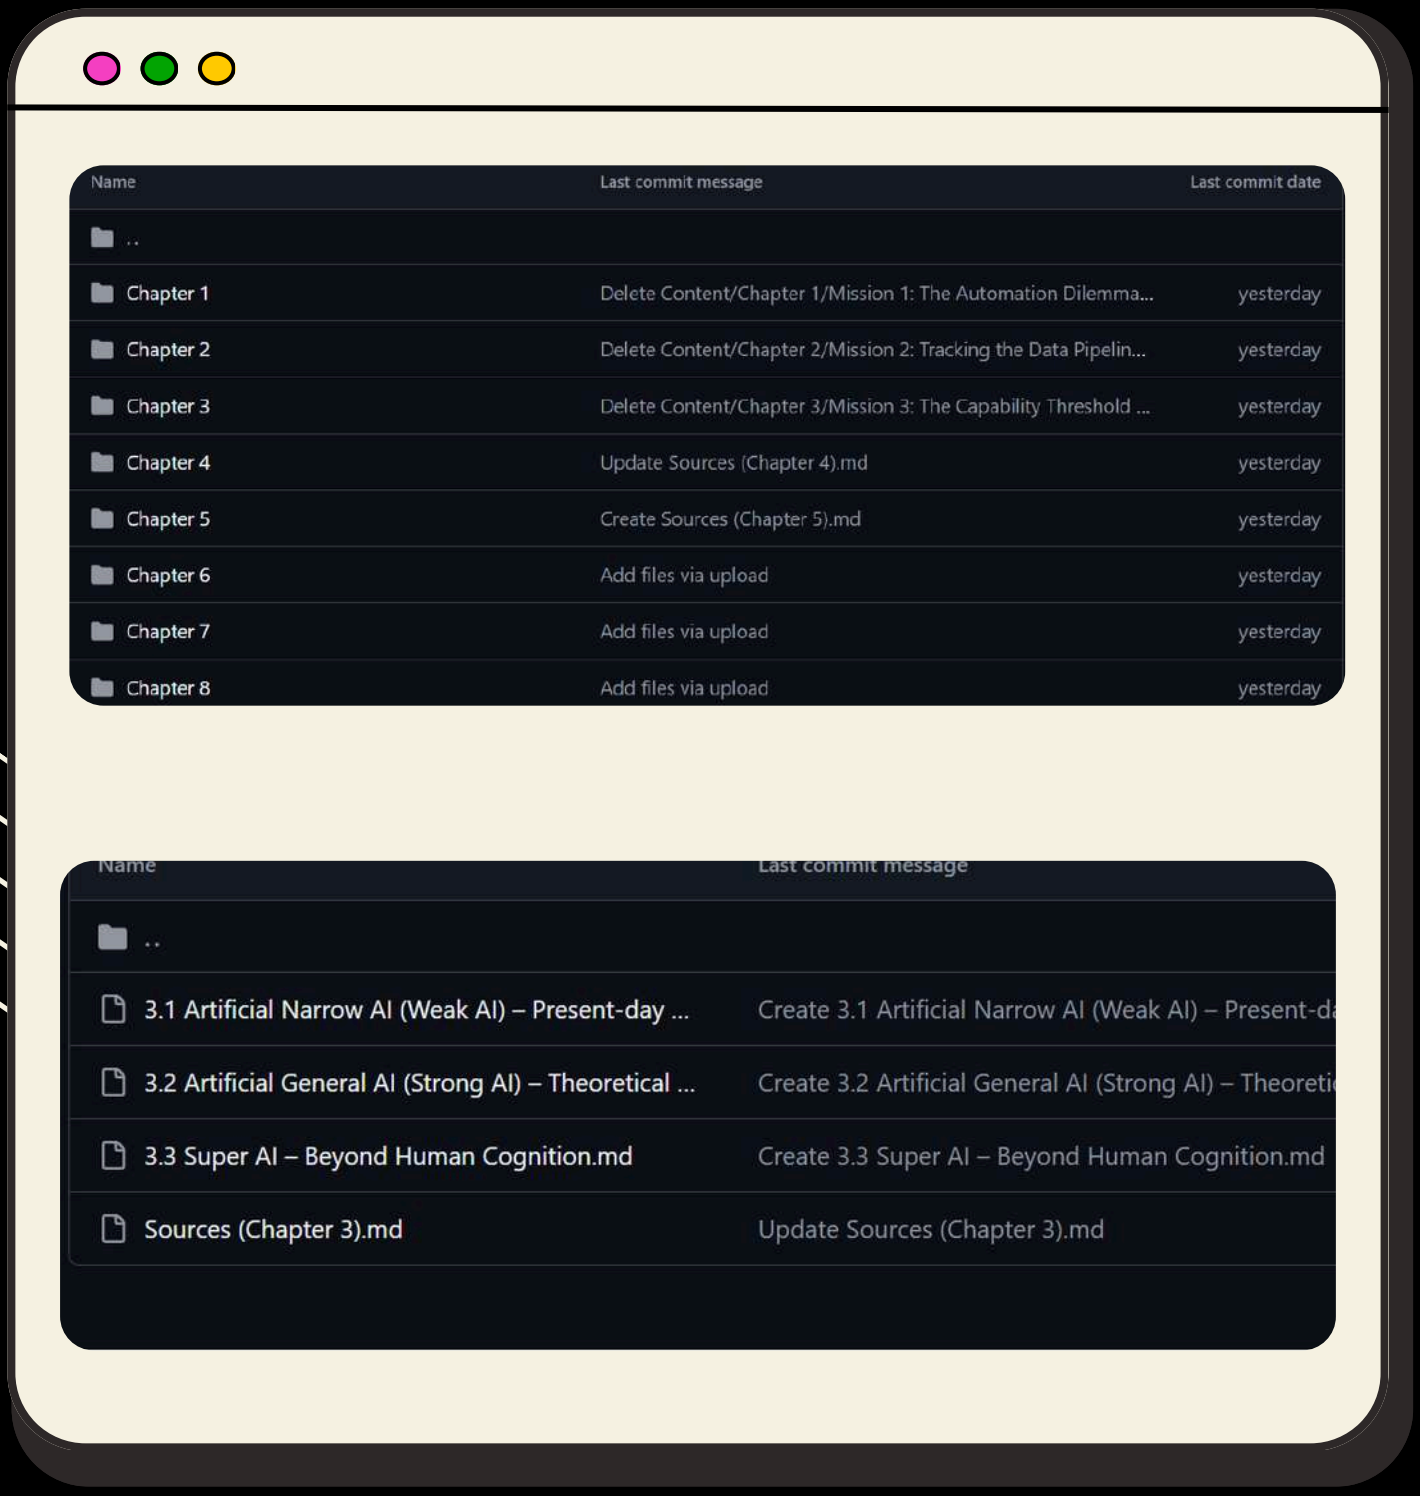

PHASE 2.2: Finishing Markdown Content

AI LOG

- Claude was used to search sources and create information for the missing chapters in our materials Chapter 6-8 . furthermore, it assisted in finding activities that suited and matched the chapter that it was associated with. this drastically improved on our content's accuracy and quality without sacrificing personal input and effort in the project.

NEXT PAGE FOR PHOTOS!

NEXT UP: Submission

04/11/2026

PHASE 2.3: Finishing all materials

WHAT DID WE DO?

- we individually worked on our own task with careful thought on the different requirements

PROBLEMS FACED

- some of us were procrasinating during certain moments

WHAT WE LEANRT

- to simultaneously work alone and collaborate when needed

THINGS TO IMPROVE ON

- Finishing
- Study Guide
- Video Tutorial
- PPT Slides
- Test bank

TASK COMPLETED:

- progress on the submission

Contributions

Sean 100
Hayden 100
Shioru 100
Maxienno 100

04/11/2026

PHASE 2.3: Finishing all materials

AI LOG

- MAXXIENO: Claude helps collect the source and the source information into the file. I opened the link of the source and cross checked with the information given by Claude. I used it as a tool to help me collect and format the data with the source given to me.I crossed checked the data given whether it is truly from its source,I also add some additional diagrams and information to help complete the chapter.I had learned that ai is not perfect and can still make some mistakes or sometimes can give incomplete works

NEXT UP: Submission

05/11/2026

PHASE 2.4: SUBMISSION

WHAT DID WE DO?

- we finished everything with several revisons and updated all logs

PROBLEMS FACED

- some of us were procrasinating during certain moments

WHAT WE LEANRT

- work more at a shorter time

THINGS TO IMPROVE ON

- time management
- team communication

TASK COMPLETED:

- final submission

Contributions

Sean 100
Hayden 100
Shioru 100
Maxienno 100

03/11/2026

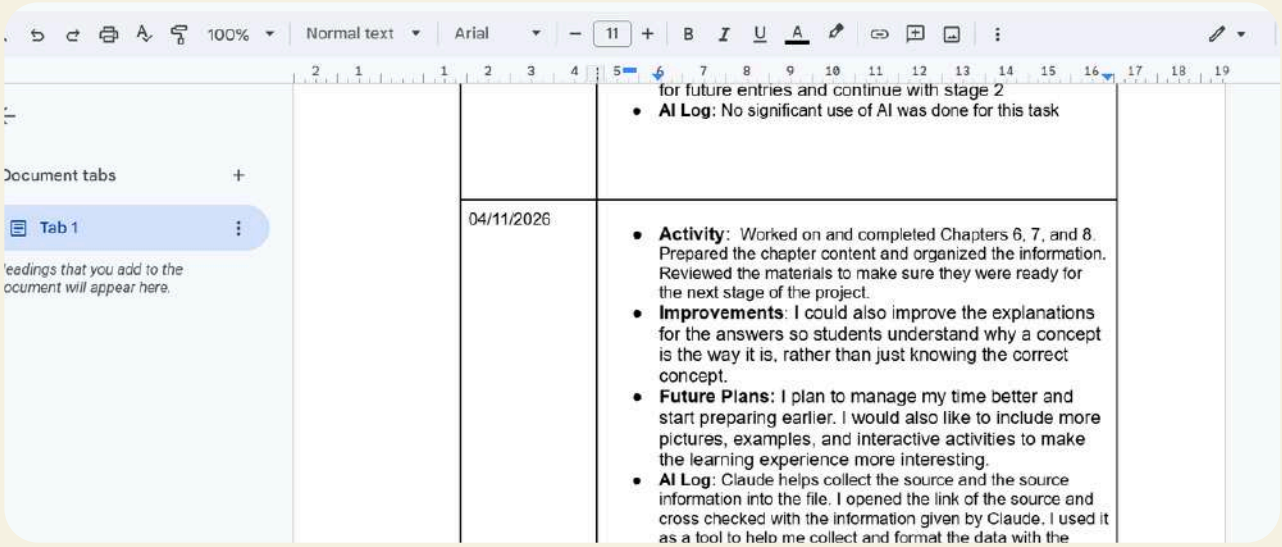

PHASE 2.4 SUBMISSION

AI LOG

- Maxienno: Claude helped me create test bank,questions while I gave the AI,data. I cross check the questions would have the right answer as the AI suggested. I used AI to help generate and organize ideas for the questions. It helped me create multiple-choice questions, suggest possible answers, and provide explanations. The generated content gave me a starting point, which I then reviewed and adjusted before using it in my kahoot.

Tab 1

Headings that you add to the document will appear here.

	for future entries and continue with stage 2 • **AI Log:** No significant use of AI was done for this task
04/11/2026	• **Activity**: Worked on and completed Chapters 6, 7, and 8. Prepared the chapter content and organized the information. Reviewed the materials to make sure they were ready for the next stage of the project. • **Improvements**: I could also improve the explanations for the answers so students understand why a concept is the way it is, rather than just knowing the correct concept. • **Future Plans:** I plan to manage my time better and start preparing earlier. I would also like to include more pictures, examples, and interactive activities to make the learning experience more interesting. • **AI Log**: Claude helps collect the source and the source information into the file. I opened the link of the source and cross checked with the information given by Claude. I used it as a tool to help me collect and format the data with the
